# TECHNICAL SPECIFICATIONS

## INTRODUCTION

Gunnebo offer a wide range of cashier drawers to suit most applications. All are designed and manufactured to the same high specification. Type A and C drawers are supplied with fixed coin bowls and note storage compartments with adjustable dividers. Type B and D drawers are supplied empty and type B drawers can accommodate the Gunnebo removable cash insert (see below).

## OPERATION

All drawers are mounted on extending slides allowing the whole of the interior to be readily accessible. Slam-action locks are fitted to each drawer (each lock is supplied with two keys).

## CONSTRUCTION

The drawers are manufactured from wood with steel clad fronts and are joined to the bodies by substantial sub-frames. Drawer and body panels are finished in a light grey texture coat as standard and other colours can be supplied to special order.

## INSTALLATION

Drawers are easily assembled to the underside of a counter. Additional drawers can be mounted underneath each other to provide extra storage space.

## FEATURES

All drawers are designed to withstand constant long term use.

## OPTIONS

Type A & C drawers can be supplied with all-note dividers or coin bowls.

Deadlocks can be fitted in conjunction with the slam locks for added security or for management control of certain drawers.

Normally all locks differ but if required, for a series of drawers/cupboard units, locks can be supplied which are all operated by the same key. In addition, drawers can be supplied with dedicated master-keyed lock suites.

## REMOVABLE INSERT

### Operation

The removable insert is designed to fit the type B drawer unit or the Cashier Till (see separate leaflet). The insert can be taken out at the end of the day or at change-over times.

To remove the unit from the drawer the locking lid is simply placed on top of the insert, secured by two keylocks and then withdrawn by means of the carrying handle. A compression pad retains the coins during transit.

### Construction

The removable insert is constructed to the same standard as the drawers. Eight plastic coin bowls and adjustable note dividers are included. The locking lid is of all-steel construction.

#### Dimensions Types A & B

external -	height: 165mm	width: 495mm	depth: 635mm
internal -	height: 122mm	width: 400mm	depth: 582mm
