

Tracked Gate M50

Sliding gate designed to stop all threats - certified M50

The unique design of the Tracked Gate M50 affords true bi directional impact protection and is therefore ideal for all critical infrastructure applications. It has obvious applications ranging from correctional facilities, critical defence sites, courts, airports, refineries, embassies and many other designated high risk areas.

The gate boasts a tracked design. Therefore the system is capable of high speed opening and closing times with unrivalled reliability and up to opening widths that are impossible with other principles.
