

# Enclosures

Virdi Distribution SA (Pty) Ltd have designed a range of enclosures for the ViRDI Range of Biometric Terminals in order to better protect the ViRDI Terminals, provide Mobile applications and in some instances provide Vandal Resistant capabilities

## **ACC210 - Vertical Robust Enclosure**

1mm 316 Stainless Steel Construction

For AC2100, AC2100H and AC5000 Biometric Terminals

Cable Containment

Smokedy UHI Acrylic Shroud

(H) 215 x (W) 112 x (D) 85 mm

## **ACC220 - Horizontal Robust Enclosure**

1mm 316 Stainless Steel Construction

For AC4000 and AC6000 Biometric Terminals

Cable Containment

Smokedy UHI Acrylic Shroud

(H) 150 x (W) 222 x (D) 120 mm

***USE ACC225 when mounting AC4000***

## **ACC260 - Small Vertical Robust Enclosure**

1mm 316 Stainless Steel Construction

For AC-F100 and SR100FP Biometric Terminals

Cable Containment

25 x 16 mm Entrance for Conduit

(H) 155 x (W) 80 x (D) 65 mm

# Enclosures

## **ACC240 - Vandal Resistant / Prison Enclosure**

- 1,5mm 316 Stainless Steel Construction
- 5mm Acrylic Face Plate
- For AC5000 Biometric Terminals
- Cable Containment
- Modular Design
- Flange Cover Fixing Points
- Wall Fixing Points

## **ACC400 - Advanced Portable Kit**

**Does not contain Terminal**

- Aluminium Construction
- Smoked UHi Acrylic Shroud
- Rechargeable Lithium-Ion Battery
- 18 Hours Operation
- For AC2100, AC2100H and AC5000 Biometric Terminals
- Weight 1,5Kg without Terminal
